D. TECHNICAL SPECIFICATION

Model: T8 Pro

Size: 185*87*40mm

Weight: 550g

Battery Capacity: 18000mAh (66.6Wh)

Output: 5V/9V Quick Charge; 5V/2.1A; 12V/10A; 12V Jumper Socket

Input: 15V/1A

Full Charging Time: 4.5h

Starting Current: 500A (3s), 300A (5s)

Peak Current: 1200A

Waterproof Level: IP65

Working Temperature: -20°C~ 60°C

E. FAQ:

Q: How to turn off the device?

A: This device is equipped with intelligent detection system and will shut down automatically in 30 seconds once there is no load or it is fully charged.

Q: How long will it take before the device is fully charged?

A: It will take about 4.5 hours with the 15V/1A wall charger.

Q: How many times can T8 Pro charge the cell phone?

A: It depends on the capacity of your cell phone. Taking iPhone 6 as an example, T8 Pro can charge it about 7 times.

Q: How many times can this device jump start a vehicle when it is fully charged.

A: It can jump start the vehicle about 25 times.

Q: What is the lifetime of T8 Pro?

A: About 3-5 years in general condition.

Q: How long can T8 Pro hold a charge?

A: With scientific circuit design, can T8 Pro hold charge up to 12 months. But in order to extend the service life of the lithium battery, we suggest to charge it every three months.

F. TROUBLE SHOOTING
